

F380

TWO CABINS, TWO HEADS

The master cabin features an en-suite head with separate shower cubicle. Guests have a second bathroom at their disposal.

VERSATILE SEATING

Convertible seats on the main deck and the flybridge are designed to fit every need. Just push the backrests back and forth to your heart's delight.

TOP QUALITY INTERIOR

Finished with finest materials and meticulous attention to detail, your F380 will never fail to impress. Everything has been crafted to perfection.

VERY SPACIOUS STOWAGE AREAS

Place everything you need on board to be comfortable. There is sufficient space throughout the boat to keep all your items perfectly organised.

REWARD YOURSELF WITH FEATURES ENTIRELY DEVOTED TO LEISURE.

PLENTY OF LIGHT INSIDE

Three large skylights and multiple portholes flood the inside with natural light – emphasising the exquisite interior below deck.

SAFETY FOR YOUR GUESTS

The F380 delivers exceptional sea-keeping. With stunning balance and stability, its hull cuts comfortably through all types of sea.

FAMILY SIZED FLYBRIDGE

Truly generous in size, the flybridge provides a living-area on its own: Here's where family and friends meet for sunbathing or alfresco dining.

WHEN THE SKY IS THE CEILING, TRUE BOATING BEGINS.

Enjoy a glass of something chilled while facing the gentle breeze. Indulge yourself with culinary delights beneath the stars. Soak up the warmth of the sun or just sit back and unwind in good company. Being undoubtedly this boat's centrepiece, the flybridge creates an intoxicating atmosphere of living life to the full.

SPACE

combine functionality with
DESIGN

All sealine models are born of the same values: They feature wide interior spaces, an amazing quantity of natural light and outstanding design with german engineering inside. As for these trademarks, the F380 displays the true spirit of Sealine.

LET LIGHTNESS REACH ITS HIGHEST POINT: THE FLYBRIDGE.

Outclassing any 38footer in size, the flybridge of the F380 offers alfresco dining for six people on the L-shaped seating area. With the hinged backrest, the double helmseat can be converted from forward facing to backward facing seating position.

EXTERIOR DESIGN

Reversible stern seats make the aft of the main deck another lovely spot to blink into the sunlight. The split transom backrests can either face into the cockpit or the bathing platform, where you can go for a swim with utmost comfort.

Enjoy piercing through the waves with ease. The F380 is constructed to be a helmsman's boat – seaworthy under any conditions and convenient to navigate. Its state-of-the-art technology allows for immediate control of all on-board functions and makes it possible to steer and moor with extreme precision.

This level of safety also holds for the guests on board. Solid high rails and additional holders make their walk along the side deck comfortable and secure – even if the weather gets rough.

The F380 is powered by sterndrive engines. That type of propulsion frees up the boat's interior volume for occupancy space on the lower deck while reducing vibration and heat in the saloon. Thanks to the large fuel and water tanks you can savour the pleasures of traveling with a F380 over a long distance.

HARD TO BELIEVE HOW LARGE 38 FEET CAN BE.

An impressive blend of style, space and practicality, the F380 is at the cutting edge of Sealine design and craftsmanship. It allows plenty of natural light to sweep through and make all the fine furnishings, modern equipment and delicate details gleam.

INTERIOR DESIGN

A comfortable L-shaped sofa combines with a portable dining table and sliding seat to facilitate dining for up to six. A cocktail cabinet and optional TV complete the layout.

The helm offers uninterrupted views with two forward facing seats, a large instrumentation area and overhead locker.

A full height atrium brings light into the well-equipped open plan galley – a gas hob, oven, fridge, freezer, split sink, plenty of storage and an option to add a deep freezer ensure the F380 is perfect for holiday getaways.

On the lower deck, the outstanding level of design and craftsmanship continues. Here is where the F380 layout ensures the owner has the highest level of privacy possible on this size of boat.

The luxurious, forward double master cabin features an opening foredeck hatch and large skylight, whilst the en-suite head with separate full height shower is lightened by an opening portlight and skylight.

There are twin berths in the mid cabin which can convert into a double. There is also a day head with shower. Both cabins have plenty of storage to pack away all those items needed for long or short stays on board.

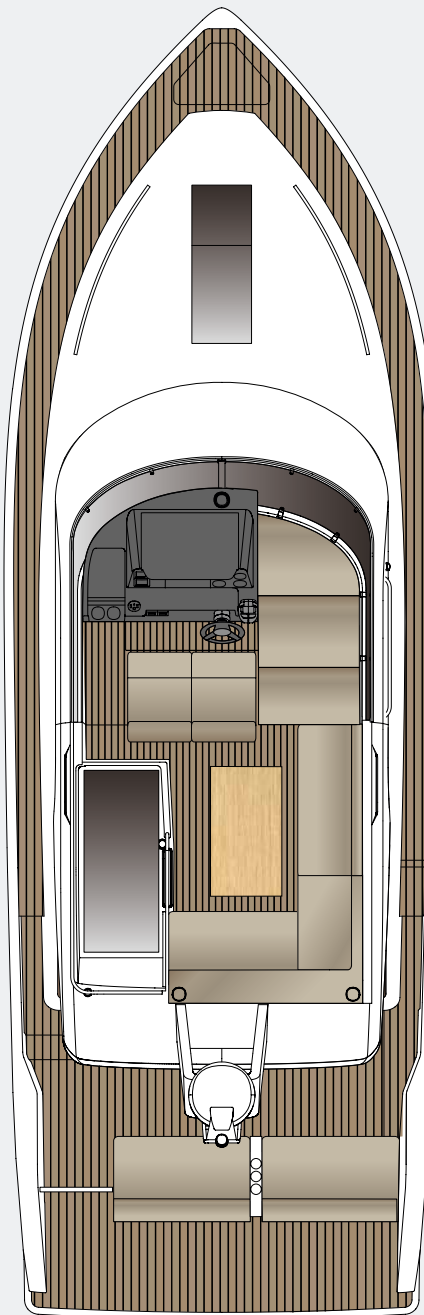

PRINCIPAL DIMENSIONS according to ISO 8666

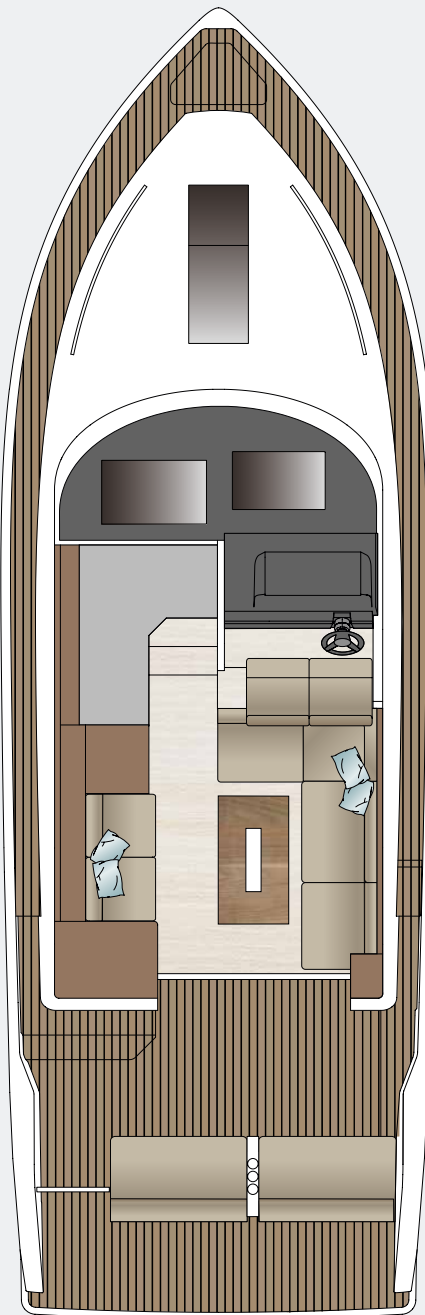

LOA	11.40 m	37' 4"
Beam	3.77 m	12' 4"

TECHNICAL DETAILS

*All performance figures are given in good faith and are intended as an indication. These figures cannot be guaranteed as top speed in particular is affected by the cleanliness of the hull, conditions of the propellers, weight carried and air/sea temperature. SEALINE reserves the right to change specifications in line with the company policy of improvement through research and development. Errors and omissions expected. Please check with your dealer for a full list of inclusions.

Optional transom seating with backrests to face forward or aft shown on plans and teak on side walk.

GREAT DESIGNERS CREATED YOUR F380. BE ONE OF THEM.

There are countless ways to kit out the interior of your boat. No matter what materials you choose: The quality will always be first-class. Carefully selected fabrics, exquisite floorings and a wide range of well-balanced colours create an ambience you'll enjoy each day anew.

Don't hesitate to create a look that is as individual as you are. The hull and the waterline of your F380 can be painted in almost every colour according to the Alexseal Yacht Coating Selection.

All worktops are made of CORIAN®. This premium surface combines high performance with outstanding aesthetics. It is best known for its seamless appearance and stunning effects of colour and translucency.

Furniture wood can be ordered in satin or high gloss finish. The carpets of the cabins are either made of wool or woven of finest bamboo fibre.

Our fabrics are made of natural materials that show attractive textures and beautiful weaving patterns. The leathers are classy, extremely persistent and gentle to touch.

If you have individual requirements about the finishes, you are always welcome to challenge our craftsmen with your special requests. Measuring up to your unique taste is one of Sealine's greatest qualities.

GERMAN PRECISION AND PASSION FOR THE SEA. THAT'S WHAT A SEALINE IS MADE OF.

In 2013, the Sealine brand found a worthy new home on the German Baltic coast. At our shipyard in Greifswald we have perfected the interplay between state-of-the-art manufacturing techniques and skilled employees.

The outstanding people in our team perform their work with enormous experience, a deep understanding of the customer and great dedication.

In addition, we are thrilled to cooperate with international partners like Bill Dixon. Working closely with our in-house personnel, the award-winning designer will create a new range of innovative Sealine models.

Above all, we believe that what holds true for the experienced boater, also holds true for us as boat builders: "Never sail against the sea, sail with it". Beyond the individual skill, there is something which genuinely binds all of us at Sealine: A great passion for the sea.
